Had cramps in both calves at start of dive, did stretches to relieve, finished dive. Turned back at 500 PSI, surface swim back to shore. Had DCI scare right hand large knuckle had crackly feeling in the skin, was tender to touch, felt like bubbles. Called DAN, they said it wasn't DCI (most likely) just to monitor it and call my Dr. if any problems. Saw a 22 inch striper laying in the weeds.
